About Us

Luxfarmol» Ltd Company was founded in 2008, in Tvardita town. The company is a resident of the Free Economic Zone.

The enterprise is licensed for conducting pharmaceutical activity and implements the entire technological process from product development to their final packaging.

The first products of our company appeared on the market in 2009. Beginning with March, the same year, our products were sold in Ukraine and CIS countries.

«Luxfarmol» Ltd is currently one of the most successful companies in this area with more than 50 medicinal products.

PROTECTING AND IMPROVING PEOPLE'S HEALTH ALL OVER THE WORLD

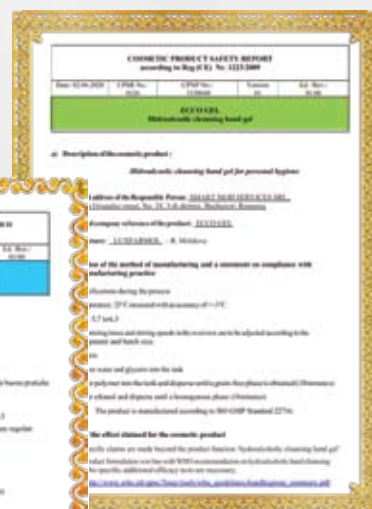

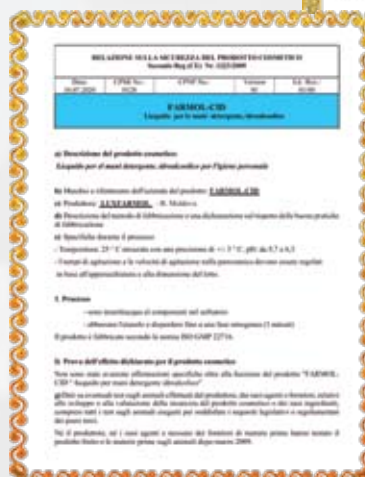

Those who want to protect and improve people's health must do a qualitative research of the missions and be determined to fulfill them. It is important to do our best to understand and admit new opportunities. You have to be dedicated to your own business and be in a constant search for new effective solutions.

These are the goals that keep us together. How we achieve our goals, what principles we adopt and how we interact with our communities.

Together we can contribute to improving the health of people all over the world, regardless of sustainable development principles.

We are constantly striving for improving our products and we do our best to meet modern standards. Our work is under the control of the Medicines Agency. We conduct our activity in compliance with the legislation in force, including security and ecological rules. The production process fully meets international standards.

Luxfarmol products are certified in the Republic of Moldova, Romania, EAEU, Italy, Great Britain and the USA

Our Products

Pharmacy is a complex science-based business. Its success can be measured through the recovery of a large number of people and their well-being. For this reason, our entire product range has the appropriate certificates of registration and quality.

We take care of people's health, but we don't forget about the environment either. We use high quality ethyl alcohol as a raw material for our products, which has no harmful impact on the environment and for consumers.

Farmol-Cid 100 ml

«Farmol-Cid» — is intended for hygienic and quick treatment of hands and cleansing of various surfaces of daily activity, in domestic conditions of increased hygiene, where disinfection is the basic measure to prevent spread of infections by cleaning the hands of medical staff:

- ✓ in health care institutions for children, schools and preschool institutions, social care institutions (nursing homes for elderly or disabled people), employees of economic enterprises, catering establishments, housing and communal services, patient care equipment, in drugstores and hospitals, in trade networks, in crowded institutions (stadiums, restaurants, customs and border points), as well as army and police units;
- ✓ Quick disinfection is also required in medical institutions, food and catering industry enterprises, laboratory tables, dental chairs, medical equipment, medical means of transportation, refrigerators for health care and food industry.

The disinfectant is a ready-to-use clear, light blue solution, with a smell of alcohol and light perfume fragrance.

Active components:

ethyl alcohol — 70-75%,
benzalkonium chloride — 0.1-0.2%, methylene blue.

The sanitizer is a ready-to-use solution.

HOW TO APPLY

HYGIENIC HAND DISINFECTION

Apply on hands no less than 3 ml. of sanitizer and gently massage until completely dry. Exposure time — no less than 30 seconds. Pay special attention to nails and spaces between fingers.

SURGICAL HAND DISINFECTION

Apply repeatedly on hands 3-6 ml. of disinfectant solution. It is important to cover the entire surface for disinfection with solution. Exposure time — 3 minutes. The sanitizer is applied both, on hands and forearm.

DISINFECTION OF ALCOHOL-RESISTANT SURFACES

Spray or wipe surfaces well (15-20g/1m²) and let dry. Exposure time — at least 30 seconds. No rinsing required.

Sanitizer validity — 5 years.

ECCO Antibacterial hand gel

How to use

ECCO Antibacterial hand gel effectively disinfects, refreshes and cleans the skin. It contains glycerin that helps moisturize and soften the skin of hands. This antiseptic does not dry the skin even when frequently used. In just 15 seconds it destroys the most common pathogenic bacteria and microbes. It is indispensable while travelling, outdoor activities and resting in public places. It is an optimal alternative to soap and water.

ECCO antiseptic hand gel, based on ethyl alcohol, destroys 99.99% of the most widespread pathogenic bacteria, fungi and viruses. It contains moisturizers (vitamins). It softens and refreshes the hand skin.

How to apply

An appropriate amount of gel is massaged on the hand skin until completely absorbed. It is recommended for people with a dynamic lifestyle, parents of newborns and teenagers.

It may be used at home and outside to prevent diseases at work.

ECCO Exclusive sanitizer set.

The best gift for those you love is to show them you care! Take care of your loved ones with „Luxfarmol”

We recommend to use
«Luxfarmol» Ltd sanitizers
and antibacterial gel
in the following cases:

- ✓ before walks in public areas;
- ✓ in public means of transportation
(especially during mass contamination);
- ✓ before meals, if you do not have
the possibility to wash your hands with
water and soap;
- ✓ on holidays, while resting in a different
environment, where the microflora can
differ from the one of your body;

- ✓ after playing with animals, if you do not have the possibility to wash your hands with water and soap;
- ✓ while visiting entertainment centers and shops;
- ✓ at medical offices and health care institutions, if you come in contact with a large number of people or common areas (keyboards, door handles, tables, etc.)
- ✓ at home or on walks, use it to disinfect minor wounds, scratches and injuries.

Car Glass Cleaner Spray ECCO CLEANING®

Car Glass Cleaner Spray ECCO CLEANING® is designed for cleaning headlights, mirrors, windshields and side windows of cars.

Car Glass Cleaner Spray ECCO CLEANING® is a true professional in the world of car glass detergents. Effectively removes and cleans, without leaving streaks, any kind of dirt stains, including oil, silicone, tobacco, as well as traces of chemical products, from external and internal glasses and mirrors. It makes the surface perfectly clean and has an anti-static effect.

Car Glass Cleaner Spray ECCO CLEANING® helps quickly and effectively remove traces of insects, clean up traces of bird droppings, and in some cases, remove traces of tar, which inevitably appear during long trips and trips out of town. It is harmless to paint, glass and plastic, but at the same time it cleans them perfectly. It does not contain solvents.

The highly-effective Car Glass Cleaner Spray ECCO CLEANING® covers the glass with a protective membrane that prevents subsequent contamination and improves the transparency of the glass. It perfectly cleans the surface, gives it shine. It does not leave streaks and has a pleasant aroma.

Car Glass Cleaner Spray ECCO CLEANING® possesses an innovative and technologically advanced bottle, which is very convenient to hold in the hand during use, and the unique trigger sprayer has two modes of operation: spray and jet, thanks to a special net.

The spray mode makes it practical. Therefore, 500 ml of liquid is enough to clean the glass of 60-80 cars (windshield, rear windshield, two side windows, mirrors).

Safe for paintwork, chrome, plastic and rubber surfaces of the car, as it does not contain ammonia.

The compact form allows you to keep it close at hand - in the pocket for accessories or on the car door.

Glass and Glass Surface Cleaner Spray ECCO CLEANING®

Glass and Glass Surface Cleaner Spray ECCO CLEANING® is intended for cleaning windows, shop windows, car glass, mirrors and other glass surfaces.

Glass and Glass Surface Cleaner Spray ECCO CLEANING® is a true expert in the world of glass surfaces. The product easily copes with dried dirt, streaks and old stains, as it contains effective fat-dissolving extracts. In addition, it contains an optimized blend of various alcohols that effectively removes dirt, grime and mineral oils from the surface.

Thanks to its unique formula, the glass cleaner spray visually smoothes scratches, making them less visible. It improves light reflection and, if regularly used, it improves light transmission. A visible effect may be observed, and cleanness and shine remain for a long time thanks to the formation of a protective cover against dust and dirt. It facilitates subsequent washing.

Glass and Glass Surface
Cleaner Spray
ECCO CLEANING®

Glass and Glass Surface Cleaner Spray ECCO CLEANING® perfectly cleans the surface, makes it shine, does not leave streaks and has a pleasant aroma.

Glass and Glass Surface Cleaner Spray ECCO CLEANING® possesses an innovative and technologically advanced bottle, which is very convenient to hold in the hand during use, and the unique trigger sprayer has two modes of operation: spray and jet, thanks to a special net.

It has a saving spray mode. 500 ml of liquid is enough for several months of daily cleaning.

With the Glass and Glass Surface Cleaner Spray ECCO CLEANING® you can clean less and manage to do more things.

Dishwashing Liquid ECCO®

Dishwashing Liquid ECCO® -

general purpose detergent for dishes, cutlery, kitchen fittings and work surfaces. The improved formula and concentrated composition of the product removes any dirt. One drop is enough to create rich foam that can perfectly wash the dishes, effectively removing grease, both in hot and cold water. Gentle on the skin of the hands. Fully water-washable, leaving plates sparkling clean.

Hypoallergenic.
The product does not cause skin irritation in case of allergic skin diseases.

HOW TO APPLY

Apply a small amount of the product on a sponge, foam it, wash the dishes with this foamy composition, then rinse with water. Or dilute the liquid with water (3-5 ml concentrated liquid + 1 liter of water), soak the dishes into a container with this solution, rub with a sponge, then rinse.

Dishwashing Liquid ECCO®
